

Project Demo Planning

Date	9 July 2026
Team ID	XXXXXX
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the need for a personalized networking assistant and the problem it solves for professionals attending events	2	Somya Chauhan
2	Solution Overview	Walkthrough of the system architecture — Streamlit frontend, FastAPI backend, and AI models used (zero-shot classification, conversation generation)	2	Somya Chauhan
3	Live Feature Demonstration	Live demo of entering event details, generating conversation topics, viewing history log, and fact-checking	5	Somya Chauhan
4	Performance & Testing Results	Show Postman testing results (response time, success rate) and backend logs	3	Somya Chauhan
5	Challenges & Learning	Discuss technical challenges faced (e.g., model inference speed) and how they were resolved	2	Somya Chauhan
6	Q&A Session	Answer questions from evaluators /audience	3	Somya Chauhan

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly explain networking challenges at professional events and how AI can help generate relevant talking Points
2	Solution Overview	Highlight tech stack: Python, FastAPI, Streamlit, Hugging Face Transformers (DistilBERT)
3	Live Feature Demonstration	Demonstrate: entering event details → generating topics → viewing conversation starters → checking history log
4	Q&A Session	Be prepared to explain model choice, performance results, and future optimization plans
